Start

Proceeds to Benefit
The Parrish Family
and other local causes

Steven and Anna Parrish adopted Eddie, Rosa, and Victor from Bulgaria. Eddie has Down Syndrome and autism. While non-verbal, he is working on using functional communication. Rosa had a Tessier facial cleft, a cleft palate, a severe congenital heart defect, and several genetic anomalies. Her heart defect was repaired, but she relies on a pacemaker to keep her heart rhythm in sync. Her facial cleft was closed, and will need follow up surgeries to repair her cleft palate and to fill in the notch in her gum and related dental and facial surgeries. Victor has spina bifida, hydrocephalus, cerebral palsy, epilepsy, tuberous sclerosis, cortical vision impairment, and other associated diagnoses. He suffered with extreme intracranial pressure at a young age and due to that functions like an infant. It is financially straining caring for special needs children and several more surgeries are anticipated. Please help out this sweet family!

Lunch provided for players before tournament • Beer and drinks provided during tournament
